The Power of Radium at Your Disposal

Twenty-three years ago radium was unknown. Today, thanks to constant laboratory work, the power of this most unusual of elements is at your disposal. Through the medium of Undark, radium serves you safely and surely.

Does Undark really contain radium? Most assuredly. It is radium, combined in exactly the proper manner with zinc sulphide, which gives Undark its ability to shine continuously in the dark.

Manufacturers have been quick to recognize the value of Undark. They apply it to the dials of watches and clocks, to electric push buttons, to the buckles of bed room slippers, to house numbers, flashlights, compasses, gasoline gauges, autometers and many other articles which you frequently wish to see in the dark.

The next time you fumble for a lighting switch, bark your shins on furniture, wonder vainly what time it is *because of the dark*—remember Undark. *It shines in the dark.* Dealers can supply you with Undarked articles.

For interesting little folder telling of the production of radium and the uses of Undark address

To Manufacturers

The number of manufactured articles to which Undark will add increased usefulness is manifold. From a sales standpoint, it has many obvious advantages. We gladly answer inquiries from manufacturers and, when it seems advisable, will carry on experimental work for them. Undark may be applied either at your plant, or at our own.

The application of Undark is simple. It is furnished as a powder, which is mixed with an adhesive. The paste thus formed is painted on with a brush. It adheres firmly to any surface.

1930s Shoe Fitting Fluoroscope

Step right up and see the bones in your feet! That's what many American children and adults did in shoe stores from the 1920s through the 1950s. "Shoe-fitting fluoroscopes" were advertised as the "scientific" way to check to see if shoes fit.

These machines were outlawed in all states by the 1960s, both in an effort to limit unnecessary exposure to radiation and because operators (shoe salespersons) had no special training. The machines were really only a novelty, requiring a complex apparatus to tell you what you could find out by bending over and touching your toes!

What 'scientific' statements
does the Bible make?

When did modern science
finally verify the scriptures?

1927 - Georges Lemaitre, a Jesuit trained priest, proposed that the Universe was expanding based upon his observation on an apparent Red Shift of the spectral light of various galaxies.

In 1929, Edwin Hubble, an astronomer at Caltech, agreed with Lemaitre's calculations.

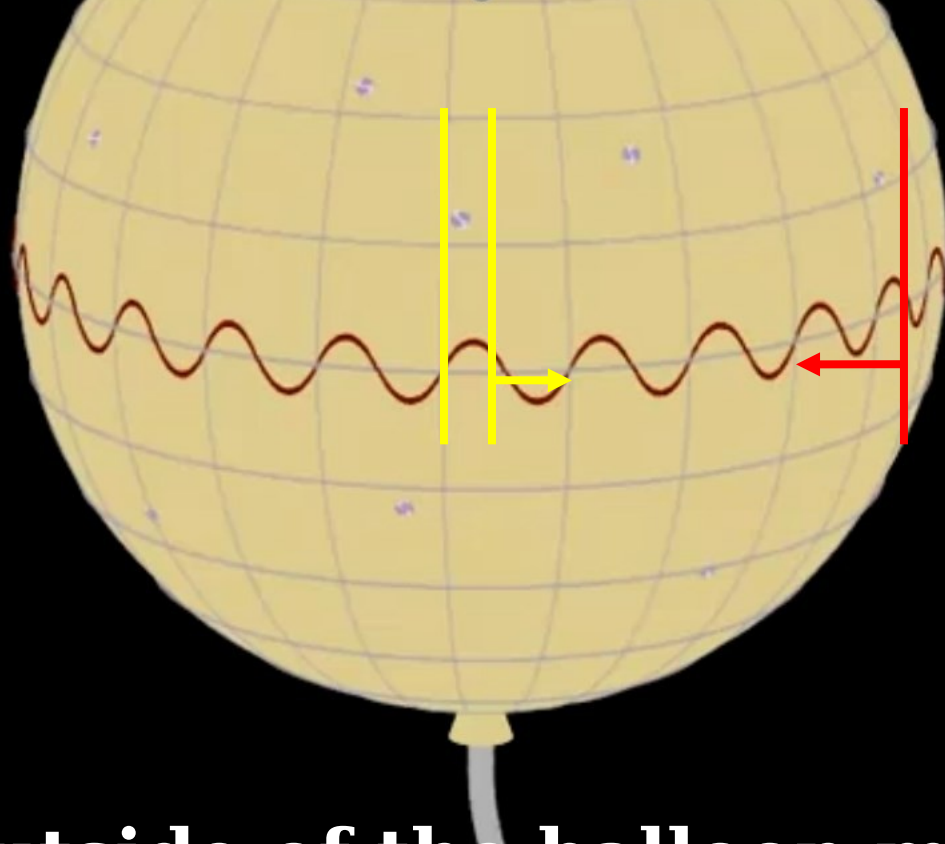

$$v = H_0 D \text{ or } D = v/H_0$$

In 1990 the Hubble Space Telescope finally confirmed the red shift appears to imply that the universe is expanding.

Scientists say 'dark matter' holds spiral galaxies together' while 'dark energy' does the opposite and causes the universe to expand.

Question 1

They don't know!

What is Dark Matter?

All the ordinary matter we can find accounts for only about 4 percent of the universe. We know this by calculating how much mass would be needed to hold galaxies together and cause them to move about the way they do when they gather in large clusters. Another way to weigh the unseen matter is to look at how gravity bends the light from distant objects. Every measure tells astronomers that most of the universe is invisible.

Question 2

What is Dark Energy?

They don't know!

Two recent discoveries from cosmology prove that ordinary matter and dark matter are still not enough to explain the structure of the universe. There's a third component out there, and it's not matter but some form of dark energy.

The first line of evidence for this mystery component comes from measurements of the geometry of the universe. Einstein theorized that all matter alters the shape of space and time around it. Therefore, the overall shape of the universe is governed by the total mass and energy within it. Recent studies of

Evidence the Demands a Verdict Josh McDowell Ministry

The Bible has never been proven wrong!

TO THE MOST
HIGH AND MIGHTIE
PRINCE, JAMES BY THE GRACE
OF GOD KING OF GREAT BRITAIN,
France and Ireland, Defender of
the Faith, &c.

never been
wrong!

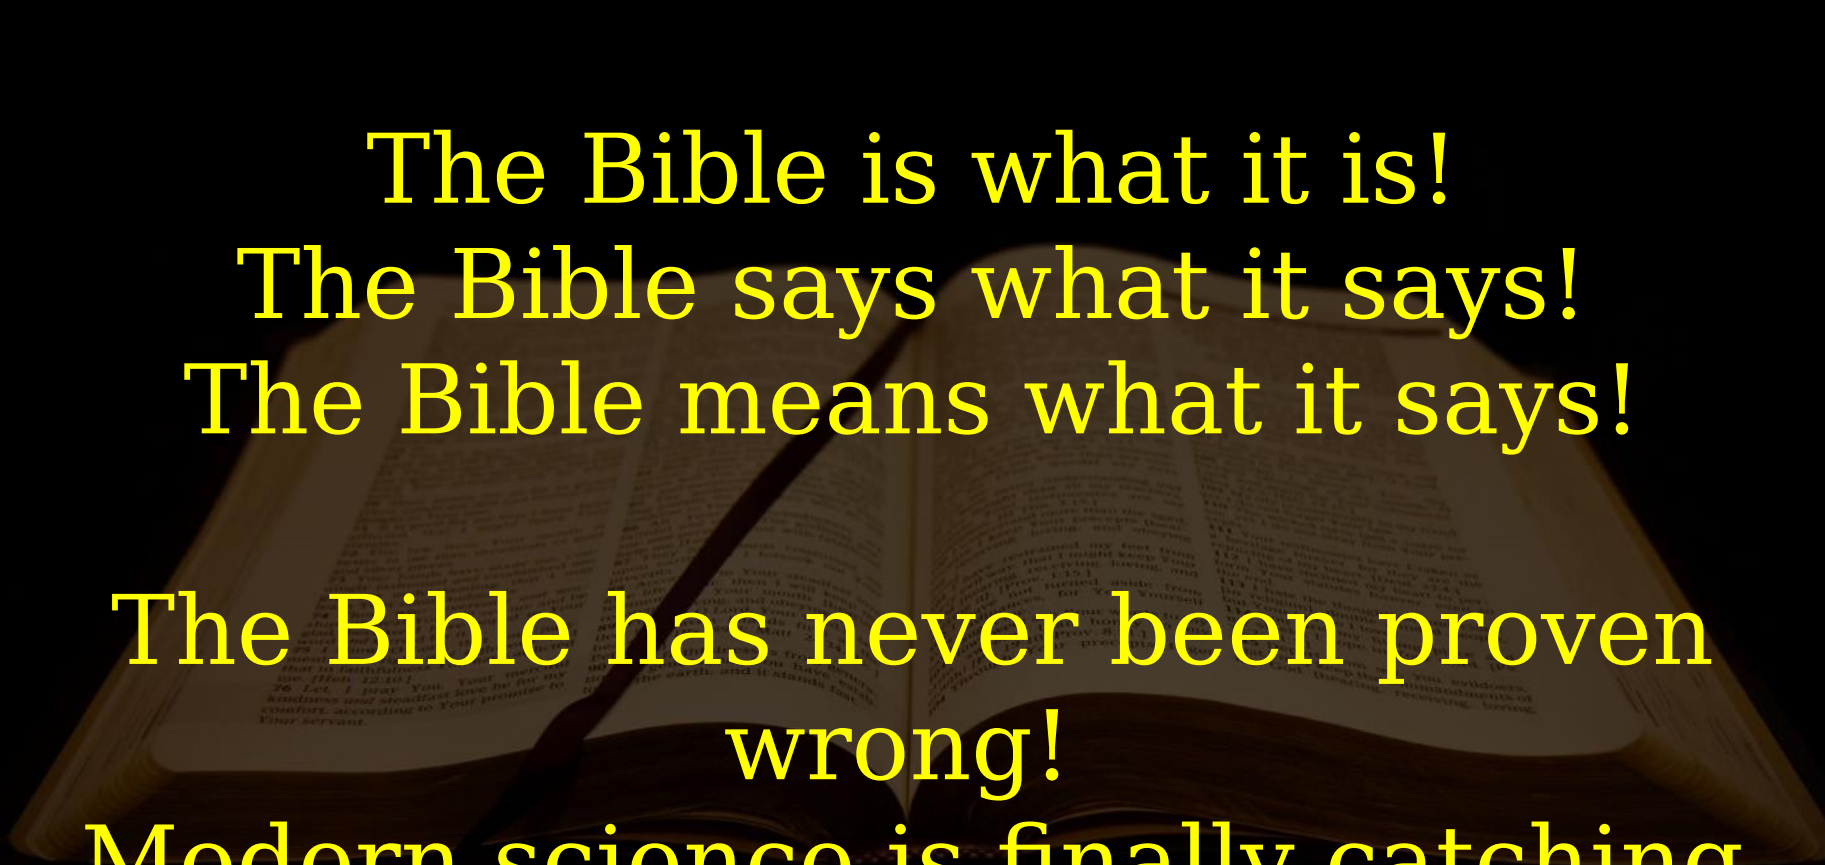

But amongst all our Joyes, there was one that more filled our hearts, then the blessed continuance of the Preaching of Gods sacred Word amongst vs, which is that inestimable treasure, which excelleth all the riches of the earth, because the fruit thereof extendeth it selfe, not onely to the time spent in this transitory world, but directeth and disposeth men vnto that Eternall happinesse which is a-boue in Heauen.

A man in a dark suit, blue shirt, and patterned tie is shrugging his shoulders with a questioning or exasperated expression. He is looking directly at the camera. The background is a plain, light-colored wall. The image is dimmed, and the text is overlaid in the center.

Why aren't you taught this?

Because you might believe?

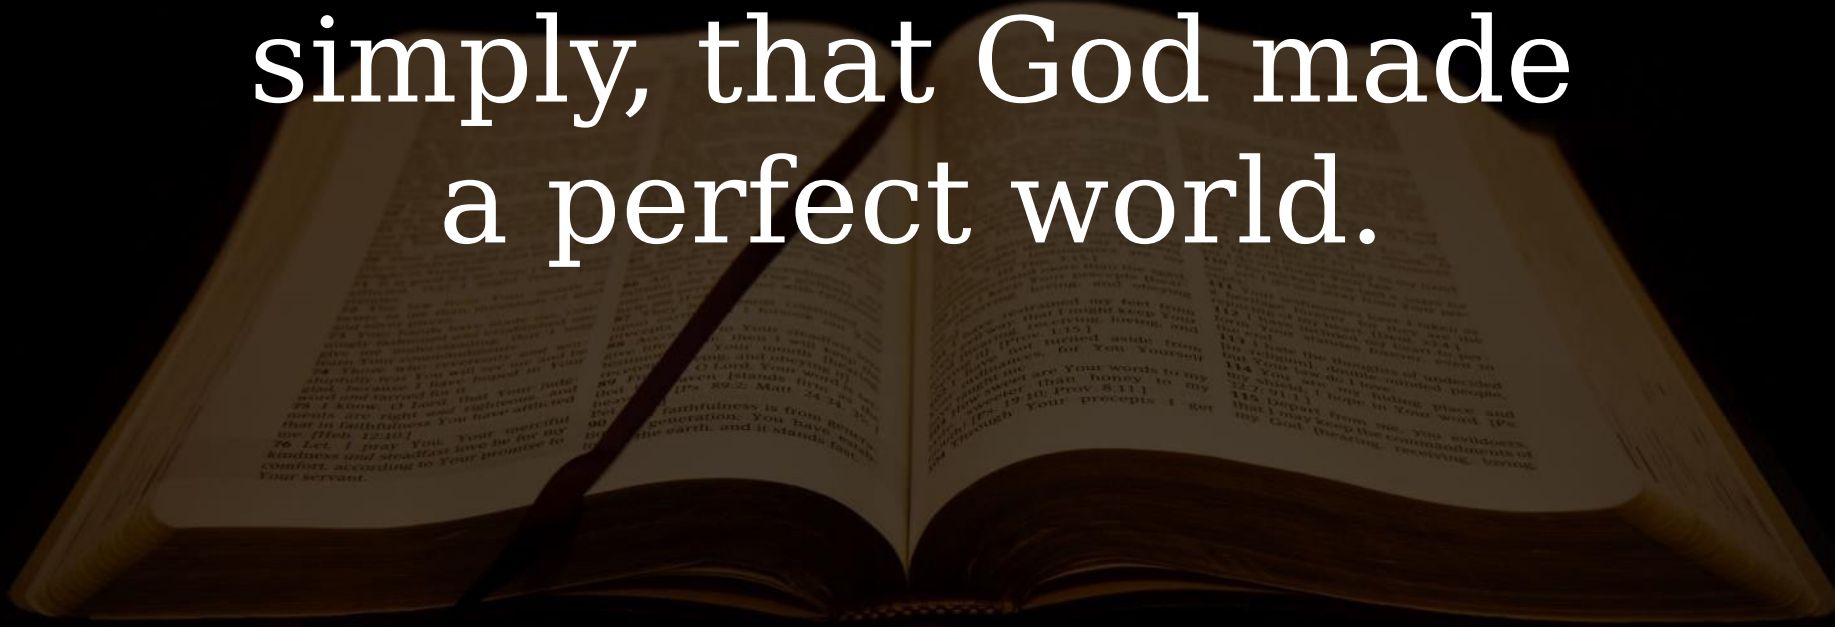

The Bible is what it is!
The Bible says what it says!
The Bible means what it says!

The Bible has never been proven
wrong!

Modern science is finally catching
up to the Bible!

The Bible tells us
simply, that God made
a perfect world.

Man wrecked it!
We disobey!

That is called SIN!
Now death came into the world.
ALL will die. After death is the
judgement.

A photograph of a severe car accident scene. A silver sedan is completely crushed and mangled, with its front end flattened and its body parts twisted. Debris is scattered around the wreckage. In the background, several people are visible: a man in a dark shirt and jeans stands near a white pickup truck on the left; a police officer in a dark uniform and hat stands on the right, talking on a radio; and another person in a high-visibility vest is near the damaged car. A dark sedan is parked further back on the right. The scene is set on a paved road with a rocky, hilly landscape in the background.

John 3:16

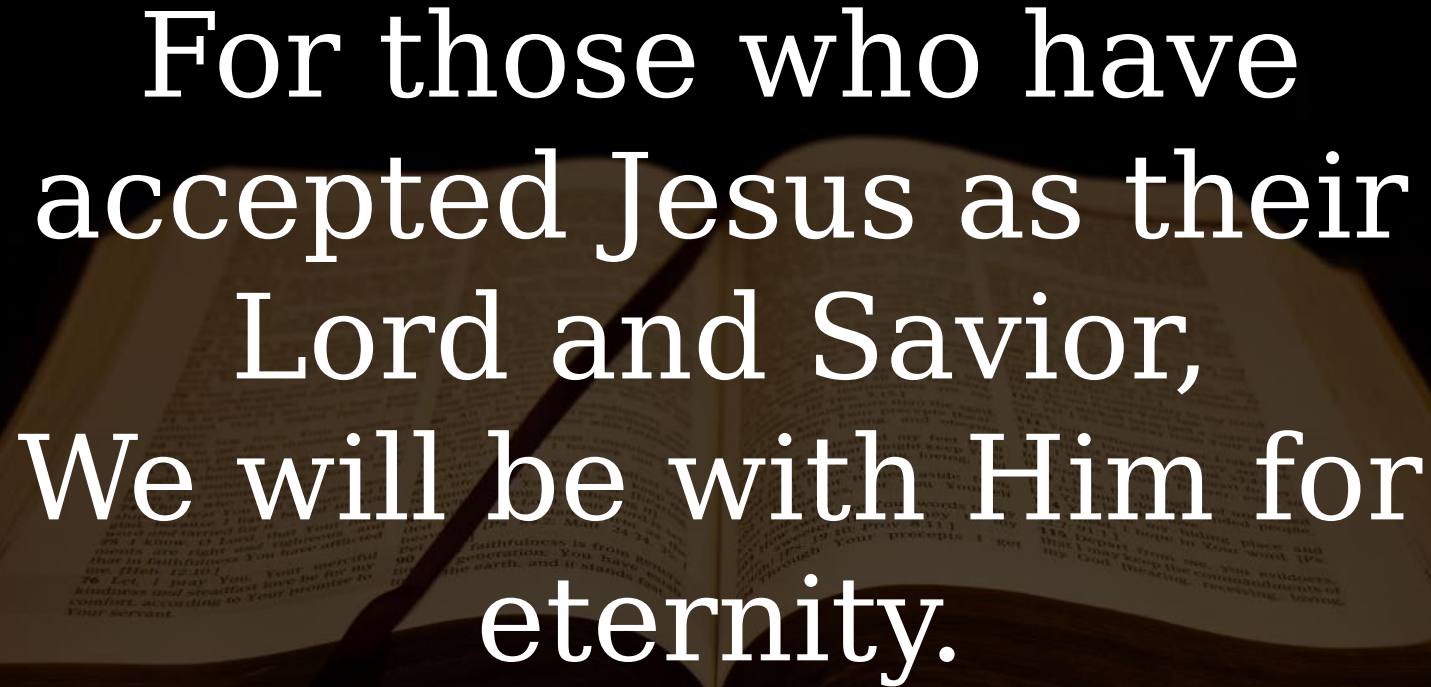

So God decided to take
on a human body
(Jesus) and suffer the
punishment
(crucifixion) for your
(our) sins.

An open book is shown from a top-down perspective, lying flat. The pages are filled with small, illegible text, suggesting a Bible or a similar religious text. The book is centered against a dark, solid background. Overlaid on the book is a large, white, serif font text that reads: "If we accept His payment for our sins, He erases the memory of ALL those things we have done wrong." The text is arranged in five lines, centered horizontally and vertically over the book's pages.

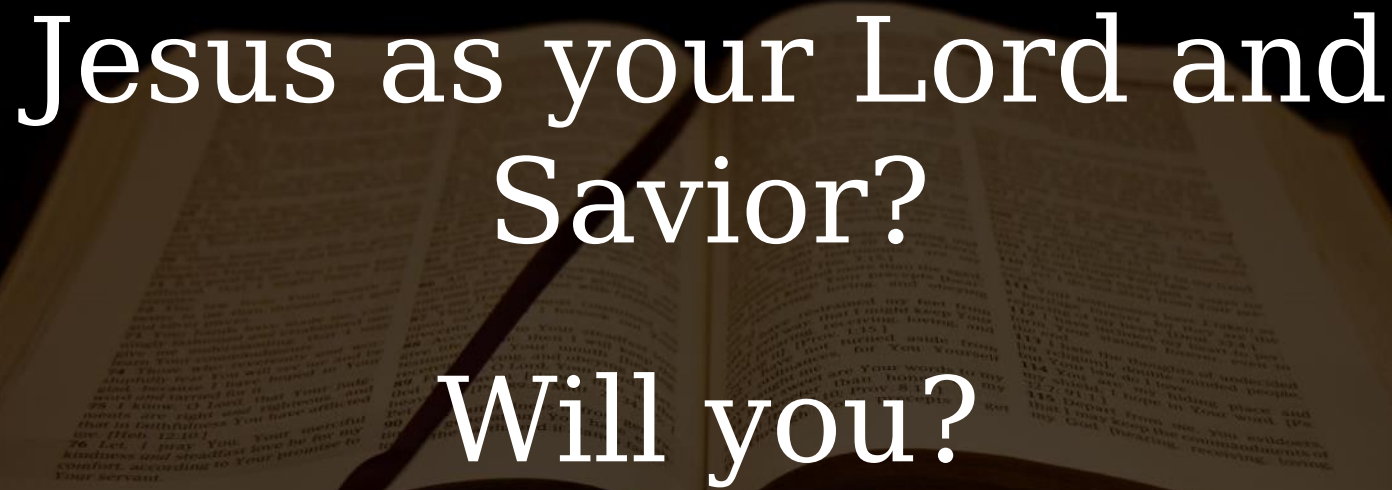

If we accept His
payment for our sins,
He erases the memory
of ALL those things we
have done wrong.

An open book is shown from a top-down perspective, lying flat. The pages are filled with small, illegible text, likely from a Bible. The book is centered in the frame against a dark, solid background. Overlaid on the book is a large, white, serif text that reads: "If we accept what Jesus did on the cross, then we are forgiven. In God's eyes we are now perfect." The text is arranged in four lines, with the first line being the longest and the last line being the shortest. The font is a classic serif typeface, and the text is perfectly centered horizontally and vertically over the book.

If we accept what Jesus
did on the cross, then
we are forgiven.
In God's eyes we are
now perfect.

An open book is shown from a top-down perspective, lying flat. The pages are aged and yellowed, with faint, illegible text visible. A dark, possibly leather, bookmark or ribbon is placed across the center of the open pages. Overlaid on the book is a large, white, serif text that reads: "For those who have accepted Jesus as their Lord and Savior, We will be with Him for eternity." The text is centered and occupies most of the frame.

For those who have
accepted Jesus as their
Lord and Savior,
We will be with Him for
eternity.

Have you accepted
Jesus as your Lord and
Savior?
Will you?
